PERSONAL DETAILS

Date of Birth: 26th July 2001

Languages Known: English, Telugu & Hindi

Father's Name: Macha Jogi Naidu

Mother's Name: Macha Nookaratnam

Address: Anakapalli , Visakhapatnam

DURGARAO MACHA

OBJECTIVE

Aspiring front-end developer with a strong foundation in UI design and development, seeking to leverage comprehensive knowledge of HTML, CSS, JavaScript, and React to contribute to dynamic web applications. Eager to join a forward-thinking organization to apply my skills in creating engaging, user-friendly interfaces and continuously learn from industry professionals.

PROFILE SUMMARY

- Proficient in Frontend Development:** Skilled in creating responsive, user-friendly web interfaces using HTML5, CSS3, JavaScript, and Bootstrap.
- Experience with Modern JavaScript Frameworks:** Hands-on experience with React.js for building dynamic and interactive web applications.
- Backend Integration:** Knowledgeable in using Node.js and Express.js for server-side development and integrating with MongoDB for database management.
- Effective Problem Solver:** Adept at using AJAX, Promise methods, and XMLHttpRequests for asynchronous web development, enhancing user experience with seamless data updates.

INTERNSHIP

Naresh I Technologies, Hyderabad, India(2023-Present)

- Currently working as a Lab Mentor in Naresh I Technologies with 1 years of experience.

PROJECTS UNDERTAKEN

- Developed a dynamic webpage to market a fictional burger restaurant using HTML, CSS, and JavaScript. Utilized CSS animations and JavaScript for interactive elements, enhancing user engagement.
- Created an informative and visually appealing tourism webpage using HTML, CSS, and JavaScript.
- Designed and developed a bank application capable of performing Create, Read, Update, and Delete (CRUD) operations using React.
- Designed a visually appealing and interactive login page with sliding animations using HTML, CSS, and JavaScript. Employed CSS transitions and animations to create a smooth and engaging user experience.
- Created dynamic view pages for NASA and FakeStore by integrating their APIs using react. Utilized NASA's API to fetch and display real-time space-related data, including images and information about celestial objects.

HIGHLIGHTS

- Successfully designed and implemented web applications, including an Burger Marketing Webpage and Tourism Webpage using JavaScript.
- Developed a React-based bank application with full CRUD functionality and secure user authentication.
- Managed and implemented APIs to facilitate seamless data integration and enhance functionality across web applications.
- Created an animated login page using HTML, CSS, and JavaScript, enhancing user experience with smooth transitions
